

## Website of the Month

USMS recognizes a "really cool website of the month" in each issue of Streamlines, its monthly E-newsletter. The December Website of the Month is the RAM website. Congratulations to the Raleigh Area Masters for this recognition. Here is the link to the site: <http://www.swimram.org/>

I'd like to draw your attention to the heading at the bottom of the web page: "Support Brian". Brian Goldman has been a regular contributor to our monthly newsletter (the Doctor is in the Pool). He is suffering from colon cancer. There is a link to his journal that you might want to investigate. I want to wish Brian and his family all the best and complete recovery from our entire NCMS community.
